A Year of Impact and Strengthening Our Mission

Dear Friends and Supporters,

Thank you for your continued support of the GMR Foundation for Research and Education. Your passion and partnership inspire everything we do, and as we look to the future, our commitment to our mission remains stronger than ever.

In 2025, the GMR Foundation focused on initiatives designed to support EMS professionals, advance research and expand educational opportunities. This annual report highlights those programs and their outcomes, reflecting our ongoing commitment to meaningful, sustainable progress.

At our 2026 Board of Directors meeting, we focused on strategic planning, reaffirmed our mission, and set the course for 2026 and beyond. Building on our legacy, we're moving forward with renewed energy and a clear vision for advancing EMS education and training.

The Board also completed a thorough review of our funding strategy to ensure it aligns with the evolving needs of the EMS community and our mission. As a result, institutional scholarship grants concluded at the end of 2024. Those resources are now being redirected into a revitalized portfolio of grants designed for broader reach, measurable outcomes and lasting impact.

Moving forward, we're launching new initiatives to expand educational access, strengthen clinical excellence and advance evidence-based practices in out-of-hospital care.

Your generosity makes it possible for us to educate the next generation of EMS leaders and elevate the profession as a whole. Together, we're creating a lasting difference.

With Gratitude,

Randy Strozyk
President, GMR Foundation for Research and Education

About the GMR Foundation for Research and Education

Our Mission

The mission of the GMR Foundation for Research and Education is to support clinical, education and health-system research designed to improve patient care and safety in the out-of-hospital setting. The GMR Foundation supports research and educational activities focused on improving patient care, as well as projects that contribute directly or indirectly to the health and well-being of communities.

Our History

- **2012:** AMR was selected as one of nine partners in the HeartRescue Project, a multi-year initiative aimed at increasing the survival rate for victims of sudden cardiac arrest by 50 percent. The AMR Foundation for Research and Education's first action was to provide a platform for the HeartRescue Project.
- **2013:** The AMR Foundation adopted the annual golf tournament as its second project. Together, the HeartRescue Project and the golf tournament are the underpinnings for the GMR Foundation for Research and Education.
- **2018:** The AMR Foundation for Research and Education became a DBA of the GMR Foundation for Research and Education.

Nick Loporcaro, Board Chair and CEO
Global Medical Response

"The efforts of the GMR Foundation for Research and Education demonstrate a commitment to driving positive change and innovation in healthcare. By providing grants and funding for groundbreaking research, we are transforming pre-hospital acute care. These initiatives are designed to identify and train the next generation of EMS professionals. Additionally, GMR's community education programs are saving lives every day, such as the HeartRescue Project, which has significantly improved survival rates for sudden cardiac arrest."

"The GMR Foundation supports clinical, education and health-system research designed to improve patient care and safety in the out-of-hospital setting."

GMR Foundation 31st Annual Golf Tournament

On September 18, 2025, Bear Creek Golf Club in Dallas, Texas, welcomed hundreds of golfers, volunteers and supporters for the annual GMR Foundation golf tournament. More than just a day on the green, this tournament serves as a lifeline for EMS innovation, education and progress.

As our primary fundraising initiative, this annual event supports clinical research, educational programs and healthcare initiatives. Each year, we broaden our positive impact through this collective community effort.

Thanks to the incredible generosity of donors, volunteers and participants, we raised **$515,484**, exceeding our goal. Every dollar raised goes toward:

- Funding research that leads to healthcare breakthroughs
- Providing educational activities that enhance EMS standards of care
- Supporting projects that promote the health and well-being of entire communities

We extend our heartfelt gratitude to Title Sponsor Chubb North America, Stroke Alert, Critical and Hole Sponsors, players, GMR leaders, GMR Honor Guard and all volunteers for making the tournament so successful. Your ongoing support empowers us to create meaningful, lasting change within the EMS profession.

Champions Behind the Scenes Who Drive Our Mission

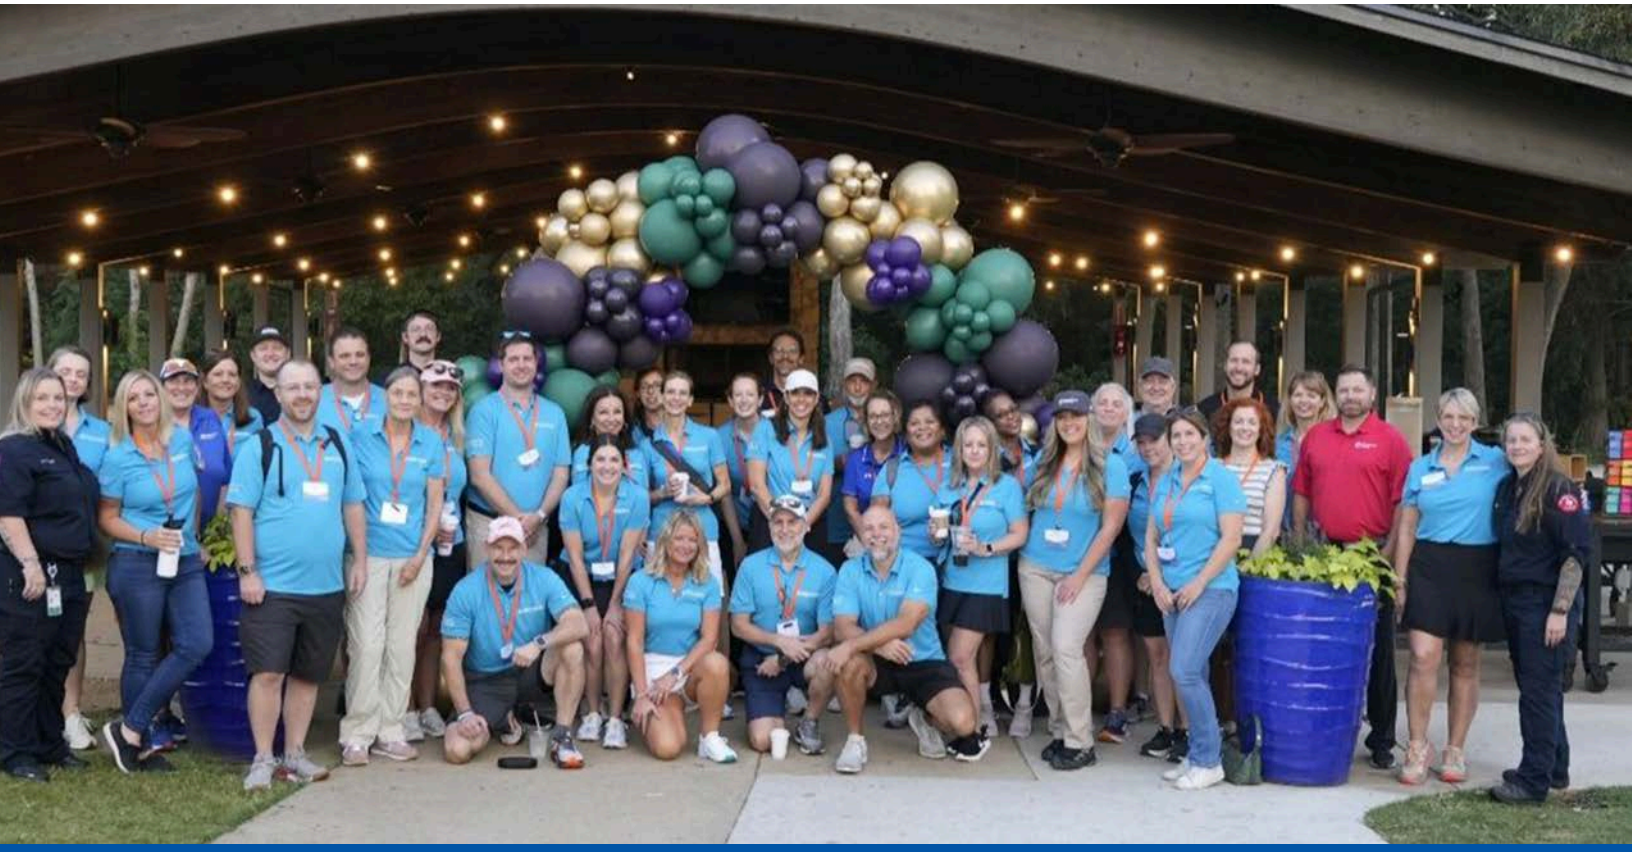

Behind every successful golf tournament, every dollar raised and every meaningful connection made stands a dedicated team of volunteers and sponsors whose spirit and generosity make it all possible.

“Advancing out-of-hospital care is at the heart of our mission, and my clinical roots as a paramedic make the GMR Foundation’s impact deeply personal. Volunteering at the golf tournament is an incredible experience, and the enthusiasm on the course is unmatched. It’s deeply rewarding to stand alongside our team knowing every dollar raised directly powers the clinical research and educational grants that elevate emergency care for clinicians and patients alike.” ***–Connor Fitzpatrick, Vice President, Event Medical & Special Services, GMR***

“I believe strongly in investing in the people and knowledge that move our profession forward. Volunteering at the GMR Foundation golf tournament is one of my favorite ways to give back because it brings together so many people who care deeply about making a lasting impact for the EMS profession and the communities we serve.” ***–Macara Trusty, Regional Director of Operational Excellence, GMR West Region***

“Supporting the GMR Foundation means investing in better patient outcomes and driving lifesaving advancements. The outing unites people for a great cause. It’s always a pleasure to connect with an outstanding team in an enjoyable and welcoming environment.” ***–Holly Taylor, Chief Hat Holder, NinthBrain***

“It’s an honor to support the GMR Foundation. The golf tournament gathers outstanding people for a meaningful cause, and it’s rewarding to see the commitment to advancing research, education and the future of our profession.” ***–Blayne Rinne, Managing Director, Empower Financial Services***

Charity, Community and Connections

The GMR Foundation's mission is driven by a deep commitment to strengthening communities through charitable giving and partnerships. Our annual golf tournament brings together a remarkable range of nonprofit organizations, uniting supporters and advocates in a shared pursuit of positive change in out-of-hospital healthcare. Here are two organizations from the 2025 tournament whose stories exemplify the spirit of giving and lasting impact.

National Medal of Honor Museum Foundation, Griffin Institute

The National Medal of Honor Museum in Arlington, Texas, honors the extraordinary bravery and sacrifice of the Medal of Honor recipients. Through the Griffin Institute, the Museum provides educational programming and professional development for teachers, empowering them to inspire students through the following values: courage, commitment, integrity, sacrifice, citizenship and patriotism. For more information, visit www.mohmuseum.org.

The Hustle for Childhood Cancer Cures

The Hustle for Childhood Cancer Cures is one of the non-profit organizations that Mrs. Texas 2025 supports. Since 2012, all proceeds from The Hustle 5K and 1 Mile Fun Run/Walk have directly funded childhood cancer research at Cook Children's Medical Center in Fort Worth, Texas.

"When a child is diagnosed with cancer, it affects more than just one family—it shakes an entire community. Every step you take or dollar you give helps fund lifesaving research and brighter futures for kids facing cancer," shared The Hustle. For more information, visit www.thehustlec3race.org.

NAEMSP Annual Meeting Scholarships

Since 1984, the National Association of EMS Physicians (NAEMSP) Annual Meeting has served as a premier gathering for EMS professionals, providing a vital forum for sharing research, advancing clinical practice and building connections that drive the field forward.

The GMR Foundation awarded **$35,000** in scholarship funding to support **60 EMS professionals** attending the Annual Meeting in Tampa, Florida, from January 26–31, 2026. This initiative reflects the Foundation's commitment to promoting ongoing education and professional growth within the EMS community.

The scholarships were awarded to non-physician, non-student EMS professionals, regardless of their NAEMSP membership status, and covered registration, travel and lodging expenses. Recipients had the opportunity to enhance their clinical knowledge, connect with leaders in the field and bring new insights back to their agencies, ultimately raising the standard of care for their communities.

Scholarship recipients described the experience as transformative, citing increased confidence, expanded professional networks and renewed passion for their work. The GMR Foundation remains dedicated to supporting the next generation of EMS leaders and ensuring continued excellence in emergency medical services.

Pictured below (left to right) are two of the 60 scholarship recipients with NAEMSP members: Joseph Zalkin, NAEMSP Membership/Chapter Committee Chair; David Grovdahl, Clarksville, Arkansas recipient; Clayton Kazan, NAEMSP Physician Member at Large; Ben Wetzel, Gillette, Wyoming recipient; and David Miramontes, NAEMSP Physician Member at Large.

NAEMSP EMS Fellowship Research Grant

The GMR Foundation awarded a **$20,000** grant to **John Su, MD,** a National Association of EMS Physicians (NAEMSP) member to conduct pre-hospital care research as part of a NAEMSP EMS Fellowship Research project.

Dr. Su is attending Leland Stanford Junior University in Stanford, California and is using these funds for his NAEMSP research project: "***Development and Validation of a Pediatric Pre-Hospital Transfusion Prediction Tool***."

The grant supports research conducted by an EMS fellow in collaboration with an EMS faculty member. The committee reviews research proposals for significance, innovation, methodology, and ethical considerations involving human subjects. A subcommittee of the NAEMSP Research Committee evaluates all applications.

ESO/PCRF Research Forum Sponsorships

The GMR Foundation awarded **$22,771** in research funding to advance continuing education and professional development opportunities for physicians and frontline providers through the ESO/ UCLA Prehospital Care Research Forum (PCRF).

The three-day (May 7–9, 2025) immersive research forum workshop pairs dedicated participants with experienced clinical mentors, insightful methodologists and expert statisticians. Through collaborative discussions and hands-on guidance, this workshop aims to harness the power of data to enhance community health and safety.

Each group focused on a single research project. PCRF faculty collaborate with ESO to help participants obtain Institutional Review Board (IRB) approval for de-identified retrospective database review projects.

Onsite statisticians, programmers and editors provide immediate, step-by-step support, helping participants access data, perform statistical analyses, and prepare abstracts for submission or presentation.

Equipment Grant Improves Pediatric Patient Outcomes

Simulation manikins and advanced training equipment significantly elevate the quality of community CPR instruction and paramedic education. Realistic, hands-on practice not only increases training effectiveness but also provides greater confidence among participants. Ultimately, this leads to improved patient outcomes, heightened awareness of sudden cardiac arrest and empowers everyday people to respond effectively in emergencies.

The Glendale Community College EMS & Paramedic Training Program in Glendale, Arizona, received a **$15,000** grant from the GMR Foundation to acquire specialized pediatric simulation manikins. With this funding, students gain access to realistic patient scenarios that help them refine critical skills and build confidence before serving in the field.

Equipment purchased through the grant includes:

- 1 nursing kid manikin
- 1 MegaCode kid
- 3 Neonate intubation heads
- 2 Cricoid stick trainers

Glendale Community College: Real Stories, Real Impact

"In-kind equipment support often goes unnoticed in traditional fundraising circles, but it makes a massive, tangible difference for our students every day. This grant allows us to use specialized pediatric simulation manikins and trainers to simulate the most realistic, high-acuity patients our students will encounter in the field." ***–Travis Rutt, Development Officer***

"The use of these simulation pediatric manikins allows our students to practice and perfect their skill set to have the confidence to interact with the pediatric population in a competent and efficient manner in the field." ***–Rainer Perez, EMS Program Director***

"The infant trainer has been solid for dialing in basic and advanced airway skills. It's realistic enough that you can tell right away if your technique is off, which helps you fix mistakes early. It's way better than trying this only on ride-alongs." ***–Mason Cuthbertson, Student***

"The neonatal intubation trainer is one of the most valuable tools we've used. Neonatal airways are a whole different challenge, and having something this realistic to practice on takes a lot of the guesswork out. I feel more prepared if I ever have to handle that call in the field." ***–Skylar Smith, Student***

2025 GMR Foundation Financial Summary

The GMR Foundation for Research and Education financial summary includes revenue from the annual golf tournament. Revenue from the golf tournament plays a significant role, serving as a major source of funding. Expenditures include grant and scholarship awards, educational expenses, conferences and miscellaneous expenses. These activities support the GMR Foundation's vision and mission.

Statement of Activity for 2025	
Revenue	
Unrestricted Donations (Golf Tournament)	$515,484.00
TOTAL INCOME	**$515,484.00**
Expenditures	
Payroll	$71,494.00
Travel and Entertainment	$14,888.00
Fundraising	$162,076.00
Legal and Professional Services	$11,662.00
General and Administrative	$11,611.00
Grants Awarded	$77,772.00
TOTAL EXPENDITURES	**$349,503.00**

GMR Foundation
FOR RESEARCH AND EDUCATION

Leading With Purpose: GMR Foundation Board of Directors

The GMR Foundation's mission, policy and direction are guided by a 13-member Board of Directors and an Executive Director. This leadership team supports the Foundation's vision in several ways. They provide leadership, guidance and feedback to individuals and communities involved in Foundation-sponsored projects. The Board also reviews financial reports, establishes policy and direction for the Foundation and contributes to fundraising efforts.

During the February 2026 Board of Directors meeting, discussions focused on strategic planning to reinforce our mission and make crucial decisions for 2026 and beyond. The Board reviewed the funding strategy to ensure it aligns with the evolving needs of the EMS community and the GMR Foundation's objectives.

Pictured below (left to right): Brian Webster, Dr. Andrew McCoy, Randy Strozyk, Joe Pahlow, Dr. Brian Clemency, Lynn White, Dr. Jon Krohmer, Amy McKenney and Jenny Biera.

Randy Strozyk, President

Randy Strozyk joined the Board in October 2018, bringing more than 45 years of experience in EMS operations and management. He served on the GMR leadership team for more than 25 years and retired in December 2024 as GMR's Senior Vice President of Executive Operations. Randy is currently serving as a senior advisor at GMR.

Strozyk earned his EMT/Paramedic certification and worked on an ambulance while studying microbiology at Washington State University. He has been heavily involved with the American Ambulance Association (AAA) for nearly two decades, serving as its past president in 2023–2024. Strozyk has a Bachelor of Science in Microbiology and a Master in Business Administration.

Edward Van Horne, Past President

Edward Van Horne has served on the Board since 2015. He is known throughout the industry for his innovative approach to EMS system design and his focus on clinical excellence. Van Horne is the President and Chief Operating Officer for GMR.

Van Horne previously served as the CEO of AMR's South Region, directing operations from Florida to Arizona. He also served as AMR Vice President of Business Development for the West Region and from 2002 to 2005 as the Director of Operations in San Bernardino County, California. Van Horne's leadership earned wide respect during the California wildfires for his division's handling of emergency medical communications and operational components during the largest evacuation in the state's history. He has a Bachelor of Science in Health Systems Administration and a Master of Business Administration.

Mark Bruning, President Emeritus

Mark Bruning is an accomplished healthcare CEO and currently partners with the founders of a Colorado-based, development-stage medical device company, where he serves as President/CEO. Bruning has held numerous healthcare leadership roles, most recently leading a private equity-owned pediatric healthcare company to significant growth in 26 months, resulting in an attractive exit at an industry multiple.

Previously, Bruning served as President/Executive Vice President of AMR from 2008 to 2013. Bruning sits on several boards and community organizations, both non-profit and entrepreneurial business ventures in telemedicine, software and medical devices. He has a Master of Business Administration.

Lynn White, Member Emeritus

Lynn White has championed EMS research, data evaluation, quality improvement and policy throughout her career. She recently concluded a five-year term on the National EMS Advisory Council (NEMSAC). She serves on the Boards of NAEMSP, CARES, Pre-hospital Guidelines Consortium and is co-founder of the GMR Foundation's Board of Directors.

White is the vice-chair of the American Red Cross Scientific Advisory Council's Resuscitation Sub-Committee and was the 2020 recipient of the Ron Stewart Award from NAEMSP for her lasting and major contributions to the National EMS Community. In 2023, she received the American Red Cross Scientific Advisory Committee Chairman's Award and the NAEMSP President's Award. White has a Master of Science in Nutritional Biochemistry.

Board of Directors continued on page 16

Jenny Biera, Treasurer

Jenny Biera assumed her role as Treasurer on the Board in January 2024, drawing on her extensive experience as the Vice President of Finance at GMR. With a career of more than 26 years, she has demonstrated a commitment to excellence in finance, specializing in budgeting, forecasting and reporting.

Biera's academic foundation is built upon a Bachelor of Business Administration degree with a major in Accounting from Fort Hays State University. Her dedication to community and philanthropy is evident through her six-year tenure as treasurer of the nonprofit organization, Family Crisis Services.

Scott Bourn, PhD, RN, FACHE, Secretary

Dr. Scott Bourn has a diverse background in EMS, emergency and critical care nursing and education. His career roles include field paramedic, emergency department and critical care nurse, EMS system coordinator, director of a university EMS degree program and senior clinical executive for two large national health delivery organizations. Dr. Bourn is VP of Clinical Quality and Impact at Securisyn Medical and Senior Quality Consultant at ESO Solutions.

Dr. Bourn has held numerous regional and national leadership positions, including Colorado State EMS and Trauma Advisory Council for nine years (five as Chair); National Association of EMS Educators Board 2007–2015 (President 2013–2015); Liaison to the National Association of EMS Physicians Board 2013–2015; and Advocates for EMS Board 2010–2013 (President 2012–2013).

Brian Clemency, DO, MBA, FACEP, FAEMS, Board Member

Dr. Brian Clemency has been involved in pre-hospital care for more than 26 years. He began his career as a firefighter and emergency medical technician. He is double-boarded in Emergency Medicine and Emergency Medical Services.

Dr. Clemency is the Associate Medical Director for AMR of Western New York, a Professor and Vice Chair of Emergency Medicine at the University at Buffalo, and a former member of the Board of Directors of the National Association of EMS Physicians (NAEMSP). He has authored more than 100 peer-reviewed publications on various topics. Dr. Clemency has a Master of Business Administration.

Steven Dralle, LP, MBA, Board Member

Steven Dralle is Regional President for the GMR West Region. He brings experience in marketing, management and clinical application to his role as Regional President. In his current role, Dralle oversees integrated air and ground operations in 15 states across the southwestern and central U.S.

Before working at GMR, Dralle served as Vice President of Global Marketing at Innovative Trauma Care and as Director of Marketing at Vidacare Corporation. Prior to Vidacare, he served as the General Manager for AMR South Division. With more than 20 years of field experience as a paramedic and his service as a combat medical specialist in the U.S. Army National Guard, Dralle is an expert in clinical aspects of the emergency medical profession. Dralle has a Master of Business Administration.

Board of Directors continued on page 17

Jon Krohmer, MD, FACEP, FAEMS, Board Member

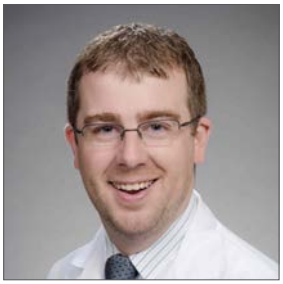

Dr. Jon Krohmer is a volunteer at the National EMS Museum, a member of the Panel of Commissioners for the Commission on Accreditation of Ambulance Services (CAAS) and a non-executive director of Velico Medical. He is an EMS Subject Matter Expert for the Cambridge Consulting Group and an Associate Medical Editor for the National Association of Emergency Medical Technicians AMLS textbook.

Dr. Krohmer is a member of the Kent County EMS Advisory Council and the Michigan Region 6 Trauma Advisory Committee. He is an Adjunct Associate Professor in the Department of Emergency Medicine at Michigan State University.

Dr. Krohmer is board-certified in emergency medicine and EMS. He was an attending physician and Director of EMS at the Spectrum Health Butterworth Campus in Grand Rapids, Michigan. He was also an associate professor of emergency medicine at the College of Human Medicine at Michigan State University, as well as the Medical Director of Kent County EMS and the West Michigan Metropolitan Medical Response System and the Region 6 Consortium.

Andrew McCoy, MD, Board Member

Dr. Andrew McCoy is an Assistant Professor of Emergency Medicine and Program Director for the EMS Fellowship at the University of Washington. He completed medical school at the Cleveland Clinic Lerner College of Medicine at Case Western Reserve University and holds a Master's in Clinical Trials at Case Western Reserve University.

Dr. McCoy completed a residency in Emergency Medicine at the University of Buffalo in Buffalo, New York, where he served as Chief Resident during his final year. He then served as the inaugural EMS fellow at the University of Washington. He worked closely with the Seattle Fire Department, King County Medic One, King County EMS and Airlift Northwest.

After his fellowship, Dr. McCoy worked clinically in the Emergency Department at Harborview Medical Center and served as the Program Director for the EMS Fellowship. Dr. McCoy has served as Medical Director for AMR Puget Sound Operations since 2016 and for Shoreline Medic One since 2018. Dr. McCoy is also a faculty member of the Resuscitation Academy.

Joe Pahlow, Board Member

Joe Pahlow has more than 26 years of experience at Laerdal Medical Corporation, where he has held high-level roles, including VP of Business Development, VP of Sales and Business Unit Leader for Resuscitation, EMS & Distribution and Laerdal's Therapeutic products. He also served as Laerdal's Regional Director. Pahlow's expertise includes sales management, distribution, strategic relations, and partnerships with well-known organizations, such as Philips, AHA, AAP, Wolters Kluwer, SonoSim, Ingmar Medical and NLN.

Pahlow has served on the Corporate Council for the National Patient Safety Foundation (now Institute for Healthcare Improvement) and the Society for Simulation in Healthcare Industry Group. He is actively involved with the Resuscitation Academy in Seattle while managing strategic partner relationships with the American Heart Association and the American Academy of Pediatrics. Pahlow holds a Bachelor of Arts in Health Administration.

Board of Directors continued on page 18

Jaime Pozo, Board Member

Jaime Pozo, a native of South Florida, joined the GMR Foundation in March 2020. In 2010, Pozo joined the law firm of Martha Pozo-Diaz, which his sister had established in 1991 and later reorganized as Pozo-Diaz & Pozo, P.A.

Pozo defends the interests of insurance companies, their insureds and various clients with high self-insured retention in the areas of premises liability, products liability, automobile/fleet/trucking liability, personal injury (defense), construction defects, and construction-related claims, pre-suit accident investigation, professional liability, ADA and accessibility claims, emergency medicine and workers' compensation. Pozo lectures nationally on fraud, accident investigation, employer liability, catastrophic work site accidents, litigation practice and bad faith in Florida. Pozo holds a Bachelor of Arts in Business Administration and a Juris Doctorate.

Brian Webster, Board Member

Brian Webster is a resident of the Seattle area. After six years working for Boeing's Military Airplane Division, Webster moved to Physio-Control, where he joined its mission to provide critical tools to lifesaving teams.

For more 24 years, Webster worked in various roles at Physio-Control, including Vice President of Operations, Vice President of Commercial Sales, Vice President of Global Marketing, and President and CEO. After leading the company through its acquisition by Stryker, he now serves as CEO of the start-up med-tech company Kestra Medical Technologies. Webster has a Bachelor of Arts in Business and a Master of Business Administration.

Amy McKenney, PHR, PMP, Executive Director

Before taking on the role of Executive Director for the GMR Foundation for Research and Education, McKenney spent three years as a volunteer and event coordinator for the GMR Foundation's annual golf tournament.

With an extensive background in program and event management, McKenney has spent more than 25 years working with non-profit organizations and community outreach and volunteerism programs. She was in full-time ministry for 15 years as the Executive Director of Operations for a combined church, cafe and satellite college.

McKenney joined GMR in 2015, starting in human resources and employee engagement. She served as the administrator for the GMR Employee Foundation and developed the GMR Community Impact Program, for which she continues to serve as Committee Chairperson. McKenney is also the Senior Manager for the GMR Motorsports Program.

Celebrating Progress and Advancing Our Mission

Dear Friends and Supporters,

As I reflect on a remarkable year of progress in 2025, I am grateful for your generosity and commitment to the GMR Foundation for Research and Education's mission. Together, we have not only advanced our mission to improve patient care and safety in the out-of-hospital setting, but we've also transformed lives and inspired hope in communities nationwide.

A Record-Breaking Golf Tournament and the People Who Made It Possible

Thanks to your contributions and volunteer efforts, we successfully hosted our 31st Annual Golf Tournament, raising an impressive $515,484, far exceeding our goal. This fundraising event brought together passionate individuals and highlighted the importance of collaboration in advancing our mission.

- **To our sponsors:** Your investment goes far beyond a brand on a banner. Your resources are transformed into scholarships, grants, research and lives changed.
- **To our tournament leadership and committee members:** Your vision, planning and tireless coordination turned the golf tournament into a true celebration of community and purpose. The countless hours you contributed behind the scenes did not go unnoticed.
- **To our volunteers:** You are the heartbeat of the golf tournament. Your energy and dedication made every participant feel valued and every moment memorable.
- **To all the golfers, guests and supporters:** Thank you for participating, giving generously and making a difference.

Ambitious Goals, Continued Commitment

We are energized by the momentum you have helped us build. We have ambitious goals as we move forward and a commitment to making every dollar entrusted to the GMR Foundation count. We will continue to pursue initiatives grounded in evidence, guided by compassion and driven by a belief that research and education are among the most powerful forces for positive change.

With Gratitude,

Amy McKenney, Executive Director
